AsTW Program
AsTW is a two-week program for students from all over the world to explore the uniqueness of ASEAN. The program comprises of two main components. The first component is the ASEAN Studies (AS) which enables the students to comprehend ASEAN issues that increasingly affect global and regional "ASEAN+3" relations. Students will broaden their knowledge and gain deeper understanding of ASEAN and "ASEAN+3" cooperation.

The second component is the Asian Languages & Cultures (ALC) which provides the students with an intensive Asian language study experience designed to build proficiency in the language chosen and to help with acquisition of basic knowledge of the related culture in an integrated approach. At the end of the course, students are expected to develop several fundamental skills in listening and speaking as well as understanding their daily conduct in an appropriate cultural setting.

This program also incorporates a series of cultural study trips that allows students to increase their awareness and enhance their appreciation of the history, culture, and social life of the country where AsTW is held.
